VOLUNTARY ANNOUNCEMENT

CHINASOFT RECENTLY COMPLETED

A SERIES OF PROJECT SIGNINGS:

JOINING HANDS WITH PARTNERS TO ACCELERATE THE DEVELOPMENT OF THE HarmonyOS NATIVE ECOSYSTEM

Chinasoft International Limited (referred to as “**Chinasoft**” or the “**Company**”) is releasing this announcement as a voluntary disclosure to inform the public of the latest information regarding the Company.

The Company is pleased to announce that it has recently completed the signing of several projects in both the northbound and southbound HarmonyOS ecosystem, further promoting the comprehensive implementation of HarmonyOS native applications and meta-services across various industries. The Company has assisted manufacturers in sectors such as smart home, smart energy, and healthcare to connect to the HarmonyOS intelligent connectivity platform, accelerating the development of the HarmonyOS native ecosystem.

In the direction of HarmonyOS native applications and meta-services, Chinasoft has recently signed several projects. In the telecom operator sector, the Company won the bids for Migu Video Technology Co., Ltd.’s “Phase I HarmonyOS Small Screen Project for the Migu Video Product and Capability Platform,” China Mobile Internet Co., Ltd.’s “2024 Mobile IM HarmonyOS Client R&D Task,” and China Telecom Corporation Limited Shanghai Branch’s “2024 Smart Home HarmonyOS Software Development Technical Service Project.” In the government and enterprise sector, the Company signed a contract with Chengdu Chengjun Technology Co., Ltd. to develop its government affairs app. In the cultural tourism industry, Chinasoft, in collaboration with Huawei and Aiju Technology, jointly developed a demonstration project for the

HarmonyOS native cultural tourism industry, successfully completing the development of meta-services and native applications for hotels and tourist attractions such as Shunhe International Hotel, Qu Nanxun Scenic Area, and Leyou Rongcheng, ensuring the efficient launch of service applications. At the end of September, Chinasoft successfully won the bid for HarmonyOS Ecosystem Service (Shenzhen) Co., Ltd.'s "HarmonyOS Native Application Listing Testing Project," providing comprehensive single-framework testing services for top-tier applications and ensuring their smooth delivery.

In the southbound device adaptation field, Chinasoft has partnered with Kaihong Wisdom and Shen Kaihong in the retail industry to launch an innovative smart coffee machine. In the smart home industry, the Company collaborated with Ningbo Sunfree Motor Technology Company Limited to develop a HarmonyOS smart curtain product and completed the HarmonyOS pet water dispenser project in cooperation with Hangzhou Benpao Miao Technology Co., Ltd. In the energy consumption sector, the Company signed a contract with Guangzhou Vastwise Electronics Technology Co., Ltd. for the "HarmonyOS Smart Socket" project and with Man Wah Holdings for the HarmonyOS Smart "AiRELAXS Cheers Smart Bed" project. In the medical industry, the Company completed the integration of the HarmonyOS ecosystem for Lepu Medical's "ECG/Fingertip Pulse Oximeter" products in collaboration with Shenzhen Viatom Technology Co., Ltd.

The Company is currently developing a northbound application ecosystem and adapting to southbound chips, with end-to-end R&D integration capabilities for HarmonyOS. The Company's R&D capabilities for HarmonyOS native applications and meta-services have successively obtained certifications as a HarmonyOS Developer Service Provider and Ecosystem Market Service Provider. The Company has also been awarded the title of HarmonyOS Native Application Development and Training Diamond Service Provider, and has received recognition such as the 2024 HDC Huawei HarmonyOS Ecosystem Outstanding Service Provider and Pioneer Partner Awards. Since the launch of HarmonyOS native applications, Chinasoft has signed cooperation agreements with several clients across industries such as hospitality, cultural tourism, transportation, finance, and media, participating in the development of over 6,000 HarmonyOS native applications and meta-services. The Company is a Huawei-certified HarmonyOS Connect Solution Excellence Partner, offering intelligent hardware solution development, module production, or chip adaptation services for HarmonyOS-connected ecosystem products. To date, the Company has served over 500 categories and 400+ brand clients.

As a long-term deep cooperation partner of Huawei, Chinasoft has made comprehensive arrangements and heavy investments in the early stages of the HarmonyOS ecosystem. After forming the joint venture “Shen Kaihong” with Huawei and the Shenzhen State-owned Assets Supervision and Administration Commission in 2021, the Company has successively established the Smart IoT Business Company and the Smart IoT Reserve Legion, forming an organizational structure of “Spearhead – Legion – Base Camp.” The Company has comprehensively deployed in HarmonyOS core technology, industry solutions, large-scale software development capabilities, and near-field delivery capabilities. At present, HarmonyOS has become the third-largest operating system in the world and the second-largest in China, with over 900 million devices in the HarmonyOS ecosystem, covering fields such as smartphones, PCs, and more. In the future, Chinasoft will fully leverage its technical service capabilities and work with various application partners to jointly accelerate the development of the HarmonyOS native ecosystem, contributing to the prosperity of digitalization and industries.

By order of the Board
Chinasoft International Limited
Dr. Chen Yuhong
